

“Keep It Clean”

Curbside Commingle Recycling Incentive Program August 2019

Incentive Program Details:

- You must have or sign up for our Curbside Commingled Recycling (CCR) Service by August 1, 2019
- During the regular recycle pick up days on the second and fourth weeks of August, City Sanitary Service will randomly select one customer’s CCR cart. A different customer each day of that week will be randomly selected and we will inspect what recyclables are in the cart.
- If there is contamination in the recycle cart then you will not qualify for the reward. We will leave a reminder letter explaining how to recycle properly. Simply remove the contaminants and we will dump your cart on the next scheduled CCR service day.
- If the CCR cart contents are the appropriate recyclables with no contamination, then the customer will win a \$20 gift card to a local Tillamook merchant.
- **Winners of our “Keep It Clean” incentive program will be notified by City Sanitary Service and recognized in the Fall edition of our wastEd newsletter.**
